MEMORANDUM FOR: Chief, Military-Economics Division, ORR

ATTENTION: [REDACTED]

FROM: Chief, CIA/PID (NPIC)

SUBJECT: Airframe and Engine Plants in the USSR

REFERENCE: (a) Requirement RR/105/63  
(b) CIA/PID Project C 643-63

1. This memorandum is a partial response to your requirement dated 15 May 1963 which requests measurements of buildings within various airframe and engine plants in the USSR.

2. OKB 293, 301, and 456 at Khimki were covered on [REDACTED]  
[REDACTED] These are the best recent coverages of the area. Measurements were taken from [REDACTED]

3. The attached line drawing contains all discernible structures within the areas outlined on the annotated photograph which preceded the requirement. Due to poor quality photography the best measurements are of doubtful accuracy with errors estimated at 30 to 50 percent for the large buildings. The smaller structures have errors that may be more than 80 percent and in some areas the quality is such that even rough measurements are impossible.

4. The photo analyst on this project is [REDACTED] and he may be contacted on extension [REDACTED] should there be any questions regarding this project.

5. This project is continuing and the requested information on the other installations will be forwarded upon completion.

## Enclosures:

- 1 - Line Drawing (Khimki)
- 2 - Listing of Measurements (4 pages)
- 3 - Material on loan from ORR
